

Making our world more productive

Press Release

Linde Freezing & Chilling Systems Displayed at Process Expo

DANBURY, Conn., (October 11, 2021) – Linde (NYSE:LIN; FWB:LIN) announced today that its CRYOLINE® UPF ultra performance flighted freezer –to help customers produce individually quick frozen (IQF) products – and the CRYOLINE® CVT cryovantage tunnel freezer – with a focus on cryogen efficiency – will be on display in booth 11023 at the FPSA Process Expo in Chicago.

Linde is an FPSA allied member and works with food processing companies to provide effective and cost-efficient methods utilizing liquid nitrogen or liquid carbon dioxide to rapidly freeze, chill, or cool food products to processor’s desired target temperatures. Process Expo will be held in Chicago’s McCormick Place South Hall, November 2-5, 2021. Linde staff will be on hand to discuss how cryogenic gas technology has helped customers lower their production costs and improve overall product quality.

“The Process Expo show floor offers visitors a look at many of the latest advances in food processing and production,” said Chris Johnson, Business Development Director. “Linde’s food cooling, process chilling, and cryogenic freezing systems are optimized for rapid and efficient heat removal to help processors benefit from high quality products produced within a reduced footprint compared to other industry offerings.”

About Linde

Linde is a leading global industrial gases and engineering company with 2020 sales of \$27 billion (€24 billion). We live our mission of making our world more productive every day by providing high-quality gases, technologies and services which are making our customers more successful and helping to sustain and protect our planet.

The company serves a variety of end markets including chemicals & refining, food & beverage, electronics, healthcare, manufacturing, and primary metals. Linde's industrial gases are used in countless applications, from life-saving oxygen for hospitals to high-

purity & specialty gases for electronics manufacturing, hydrogen for clean fuels and much more. Linde also delivers state-of-the-art gas processing solutions to support customer expansion, efficiency improvements and emissions reductions.
