# FPS Food Process Solutions Commits to US Manufacturing for US Market

Vancouver, BC – In a strategic move to serve the growing US market, FPS Food Process Solutions (“FPS”), a global leader in turn-key freezing and cooling equipment, announces its second acquisition in Michigan as FPS’s new US Headquarters effective March 30, 2022.

The 140,000 sq ft facility will support and grow the US market as a strategic location to provide US-based manufacturing, fabrication, and service. The additional expansion comes right after the acquisition of its wholly owned 12,000 sq ft Parts and Service Centre announcement in February 2022.

“This investment is a significant step to show our commitment to our US-based customers as well as continued support for our global divisions and affiliates,” says Jay Loy, General Manager, FPS USA. “Expanding our manufacturing in the US strengthens our service and support while securing our position as the global leader and number one choice for the market.”

Benefits include:

- US-based manufacturing ensures made in America commitment
- Large capital investment supports US economy
- Robust procurement access and supplier pipeline
- Optimized transportation and shipping
- Improved cross-border logistics across North America (incl. Canada)
- Experienced talent pool and technical expertise
- Centralized hub and proximity to transportation routes and airports
- Dedicated service and install training center

While the facility is undergoing renovations, FPS USA currently provides fabrication, service, and aftermarket support with expectations for production to commence before end of 2022 and full manufacturing in early 2023.

### At Process Expo 2023

To learn more about FPS Food Process Solutions, drop by Booth 3138, South Building at Process Expo 2023 from October 23-25, 2023, at McCormick Place in Chicago, IL, USA.

### About FPS Food Process Solutions:

#### **Who We Are**

FPS Food Process Solutions, a global leader in turn-key freezing and cooling equipment, employs over 500 staff around the world. Established in 2010, FPS has a combined 600,000+ sq. ft (55,742 sq. meters) of space in 14 locations including its Canadian headquarters, manufacturing, and warehouse facilities as well as international sales offices across five continents.

#### **Our Vision is to *Revolutionize Hygienic Standards***

We use leading-edge technology and innovation to move our industry forward. Our focus on hygiene is the foundation for safe food production. Our purpose is to revolutionize the food processing industry and ensure the safest and cleanest global food production for all.

#### **Our Mission is to *Set a New Standard***

We invest in our people and partners. We believe the best results come from strong collaborations. We aim to raise the bar in our field by providing close client relationships, offer outstanding levels of service, and implement global hygienic standards. We believe that together, we will set a new standard.
