

Spencer Strainer Systems

Press Release

Jeffersonville, IN August 17, 2023

Spencer Strainer Systems, a manufacturer of Permanent, Self-Cleaning Filtration equipment for liquid processes, will exhibit in the Process Expo at McCormick Place in Chicago, October 23-25 2023.

On display will be a working demonstration unit to show continuous removal of particles from a liquid flow. These filtration units are used in many applications, including soups, sauces, toothpaste, chocolate, peanut and nut butters, juices and more.

Visit us in Booth # 2938 in the Process Expo.
